RE: **WC Docket No. 04-36, In the Matter of IP-enabled Services**

Dear Ms. Dortch:

On May 9, 2005, Susanne Guyer, Michael O'Connor, and Karen Zacharia of Verizon met with Commissioner Jonathan Adelstein and Scott Bergmann, Legal Advisor to Commissioner Adelstein. Also, on May 9, Kathleen Grillo, Michael O'Connor and Karen Zacharia of Verizon met with Jessica Rosenworcel, Legal Advisor to Commissioner Michael Copps, to discuss VoIP and 911.

Verizon stated it strongly supports the Commission's decision to address the Enhanced 911 capabilities of VoIP providers' services. Verizon has always been committed to public safety issues and will continue to work with VoIP providers and the industry to develop new and better solutions for these technologies.

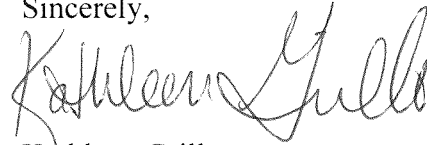

Verizon also provided an update on the status of the enhanced 911 solution it is developing in New York City which will enable VoIP providers to send their customers' 911 calls to trained call-taker positions in the PSAP and to provide customer address and call-back number information. The attached presentation formed the basis of the discussion.

Verizon also discussed the emergency response service it offers on its VoiceWing product, and suggested that the Commission consider various transition and implementation issues related to an E911 obligation.
